About Me

I am a motivated student with strong proficiency in Java, JavaScript, and Python, coupled with experience in front-end development. I am enthusiastic about applying my skills and passion to spearhead innovation as a future technology leader on a global level. Currently, I am actively pursuing a software engineering internship to enhance my capabilities and make impactful contributions to pioneering projects.

Full Name :- Kithalawalane Kankanamalage Danula Sathmina Rathnayaka

Birthday   :- 2008 May 11

📞 +94 712-512-312

- MySQL
- Adobe Photoshop & Premiere Pro

Education

Robert Gordon University, UK
BSc (Hons) Artificial Intelligence And Data Science

Registered for September Intake 2024

Institute of Computer Engineering Technology, Sri Lanka
iCET Certified Developer programme

Currently Reading

Informatics Institute of Technology, Sri Lanka
Foundation Certificate in Higher Education for Artificial Intelligence And Data Science

2023 - 2024

University of Moratuwa, Sri Lanka
Trainee - Full Stack Developer

2024

Lyceum International School, Panadura
Completed GCE Ordinary Level Examination 2022(2023)

Projects

Modern Website for IPhone 15   https://danula2008.github.io/iphone_clone/

Designing the Apple iPhone 15 Pro website with React, GSAP animations, and Three.js entails crafting a visually stunning experience, blending smooth transitions, intricate animations, and interactive 3D models to showcase the device's cutting-edge features and design.

Landing Page for Bank Application   https://danula2008.github.io/hoobank/

Developed a responsive React JS application(Hoo Bank) featuring a stunning hero section, high-quality assets, gradients, business stats, reusable feature sections with CTAs, and testimonials for modern web development.

Landing Page for a Chat Bot   https://danula2008.github.io/brainwave/

I crafted a cutting-edge website with parallax effects and a modern bento box layout, leveraging React.js and Tailwind CSS to achieve sleek, responsive design and functionality.
